

Theobald Park Road

Enfield

Private Client

A promotion of the site for residential development through the Council's 'Call for Sites' and emerging Local Plan process. The site is currently designated as Green Belt, but AM-P have submitted detailed representations to secure its 'release'. The site provides the opportunity to deliver approximately 300 new high quality homes.

AM-P are working with the Council, as a major stakeholder, to develop a masterplan for the wider area. The site will form a key part of an exciting wider ambition to create a "new residential suburb" in this part of the borough.
